

Play Times Tables Games

There are lots of fun games to play to help you learn your times tables.

You could play board games or card games offline or check out these websites with times table games on:

- Times Tables Rockstars
 - Hit The Button
- Top Marks Maths Games
 - Oxford Owl
 - Purple Mash

Use colours and drawings

You could:

- Write out different facts in different colours.
- Use a hundreds square and colour the answers to different times tables in different colours.

- Draw a times table flower with (the number you are multiplying by in the middle, the numbers 1-12 on the first petals and then the answers on the second petals.)

Chanting and songs

You could chant your times tables out loud to help you remember them.

There are also lots of times table songs online. Our favourites are the

Super Movers ones on the BBC website because you can also dance along!

Time Tables

Ideas for practising
at home

$$\begin{array}{l} 6 \times 6 = 36 \quad 6 \times 3 = 18 \\ 5 \times 2 = 10 \\ 5 \times 4 = 20 \end{array}$$

Speed Test!

Write all the facts out for the times table you are learning as quickly as you can.

You could use a phone, tablet or clock to time yourself or get an adult to time you.

Can you get quicker each time you do it?
