

Heritage Day

This is an opportunity for us to embrace the wider school community. Looking beyond the children and staff and include families.

At the end of the Summer Term is Spirit Alive. We traditionally find out about countries around the world and celebrate the many influences that contribute to the British way of life.

Heritage Day provides a home school link and will be a forerunner to Spirit Alive.

Some parents and grandparents have offered their support to school to help children understand about celebrations from different religions or cultures and this has enhanced the learning of children at Beechwood.

At Beechwood we value the school and world community in a variety of ways. Heritage Day encourages parents and grandparents to **celebrate** and share as part of the school community.

Some of the most popular foods, music, language and clothing in the country are influenced by those who over the generations have made the UK their home. We wish to show the positive contribution that immigration has made to us all.

Expected outcomes.

To celebrate the wider community.

To understand our wider school community.

To enhance Spirit Alive and make it more relevant to our school community.

To involve parents more in our school.

I.S. DISPLAY recognising our links, TSU and community.

Welcomes on classroom doors / flags.
