

CLIMATE JOY

We're on quest for action - with the Green Group crew
Mother Earth is healing - thanks to me and you
Beechwood are on a mission- with focus and ambition
To lower atmospheric CO2

There are 4 areas - we can address ,
To make sure our future - is shaped the best
Travel, shopping and food - and the energy that we choose
To make a world that's strong to stand the test

So Beechwood - we shout the
message - stamp our feet

We work together -
we sing from the same sheet

We are positive -
we plan and play

And we're finding climate joy!!

**Yes, we've
found joy!**

CLIMATE JOY

Decarbonisation: the name of the game-

To clean our atmosphere - is our final aim

We've swapped coal, smoke and gas- for energy that will last

To make a future that can be sustained!

We make it happen, lay out the rules

We have all said 'no thanks' - to fossil fuels

Wind, solar, and hydro - are the only route to go

Keep it green to feel the joy shine through

At Beechwood - we shout the
message - stamp our feet

We work together-
we sing from the same sheet

We are positive
we plan and play

And we're finding climate joy!!

**Yes, we've
found joy!**

CLIMATE JOY

We know the action plan, keeping it going strong
Buying smart- recycling, will help the cause along
We've gotta eat our greens, we try to eat less meat
Teach our grown ups - we know right from wrong

We take the bus more, we walk to school
We travel on our bikes, to reduce fuel
We keep on taking steps, we keep on doing our best -
The earth need fighters just like me and you!

At Beechwood - we shout the
message - stamp our feet

We work together-
we sing from the same sheet

We are positive
we plan and play

And we're finding climate joy!!

**Yes, we've
found joy!**

**We have
found climate
joy!**

**Yes, We've
found joy!**
