Dear My friend

I greet you my friend. How do you live Overseas. I would like to Introduce my country to you. I hope you are glad

Nelson Mandela was the first black president. He spend 27 years in prison because he fought for black people because they were not treated equal by the white people. In the past few years black people were not allowed to share thing .e.g Bus, school and bank with white people. Nelson Mandela fought for freedom for us black people

He was born in 1918 on the 18th of July. He lived in Qund when he was young. He was released in 1994. But things have changed now we have another President Jacob Zuma he live at Nkandla at KwaNdamalala area.

Bye I hope you enjoyed my letter. I will like you to visit my country.

♥♥ Me also i would like to visit your country. God be with you!

Your lovable friend
Asimbonge

ELECTIONS

WHEN WE TEACH OUR LEARNERS WE INVOLVE THEM IN THE ACTIVITY WE ARE DOING, BY SO DOING IT BECOMES EASIER FOR THEM TO UNDERSTAND. BELOW WE WERE TEACHING THEM PROCEDURES WE UNDERTAKE IN SOUTH AFRICA WHEN VOTING, BECAUSE ONE DAY THEY ARE GOING TO BE INVOLVED IN THIS ACTIVITY, THEY ARE CITIZENS OF SOUTH AFRICA. IN THIS ACTIVITY THEY WERE ELECTING THE PRESIDENT OF THEIR SCHOOL AND THE EXECUTIVE. ELECTIONS WERE CONDUCTED BY LEARNERS WITH AN AID OF EDUCATORS. REASON BEING TO GIVE A RESPONSIBILITY OF PARTICIPATING IN SCHOOL ISSUES, CREATION OF DIFFERENT COMMITTEES.

VOTING STATION
ENTRANCE

EDUCATORS ASSIST LEARNERS IN THE PROCESS OF
SORTING BALLOT PAPERS.

INKERS DOING THEIR WORK

EDUCATORS ASSIST LEARNERS IN THE PROCESS
OF COUNTING BALLOT PAPER RESULTS

WORKING WITH DIFFERENT STAKEHOLDERS IN OUR COMMUNITY

WE INVITE DIFFERENT STAKEHOLDERS IN OUR ENVIRONMENT LIKE ONDAPID & NURSES FROM DEPARTMENT OF HEALTH AND SOCIAL WORKERS TO COME TO OUR SCHOOL AND ADDRESS OUR LEARNERS ABOUT HIV & AIDS.

THIS WAS AN AWARENESS BASED ON ENVIRONMENTAL HEALTH PROBLEMS

DIARRHOEA → learners were gathered in a school-hall to be warned about the consequences of dirtiness and usage of contaminated water which leads to diseases such as diarrhoea. They were also taught the indigenous way of treating this disease which was to make a mixture of 1 litre of boiled water mixed with 1 teaspoon of salt and 8 teaspoons of a sugar.

STARTING OF CULTIVATION

PREPARING FOR COMPOST

MAKING COMPOST WITH WASTE

PLANTING OF SEEDLINGS

VEGETABLE GARDEN

2013

REMOVING OF WEEDS

LEARNERS & COMMUNITY
MEMBERS

2014

PLANTING OF TREES DURING ARBOR DAY

ENTERTAINMENTS DONE BY LEARNERS DURING ARBOR DAY

PLANTING OF TREES

FETCHING WATER

COLLECTING WOOD

1. VISIT TO A BLIND WOMAN HOME
11. FETCHING WATER FOR HER.
12. COLLECTING WOOD FOR HER.
13. CLEANING JUNK FOR HER.

TEACHING OUR LEARNERS TO TAKE CARE OF THEIR
ENVIRONMENT AND THE PEOPLE LIVING IN THEIR
ENVIRONMENT/ COMMUNITY TO BE BETTER SOUTH AFRICAN CITIZENS

SCHOOL YARD BEFORE PAYEMENTS

SCHOOL YARD LOOKS LIKE THIS BEFORE PAYEMENTS
WERE MADE. THIS WAS DONE BY LEARNERS

PREPARATION OF PAVEMENTS

AFTER

CREATIVE ARTS BASED ON CONSERVING NATURAL RESOURCES

AS A SCHOOL WE GAVE OUR LEARNERS A CHANCE TO SHOW THEIR TALENTS USING PROJECTS. WE WANTED THEM TO BE SENSITIVE TO THEIR ENVIRONMENT AS WE HAD PROBLEMS OF RHINO POACH IN SOUTH AFRICA. BY DOING PROJECTS THEY WILL LEARN TO CONSERVE NATURE FOR FUTURE PURPOSES. WE HAD DECIDED TO DRAW IMPORTANT ANIMALS IN THE WALL AND TAUGHT LEARNERS DAILY ABOUT IMPORTANCE OF THE BIG FIVE
