

We are thrilled to recognise students for achieving the most improved attendance at Beechwood Primary School. This remarkable achievement reflects their dedication, perseverance, and commitment to education. To show our appreciation for the effort, the school sends weekly postcards to children with the most improved attendance. These postcards are a token of our recognition and gratitude for their effort and hard work.

Regular attendance is crucial for academic success, social development, and overall well-being. By attending school every day, our students are paving the way for a brighter future.

Thank you to everyone who has supported and motivated our students!
