The curriculum for each year group is a continuous curriculum that may not neatly fit into half terms; at the start of a new half term, simply continue with the lesson of the unit where you were before the break.

Phonic Lessons

- Found in **KS2/ Extra Teaching**
- Phonics lessons are about 1 hour long so need to be done over 2 x 30-minute sessions.

Units (Early/Intermediate/Progressive Language Teaching)

- **Complete 4 units over the year**
- All main units have 6 lessons which take about 30/35 mins, including the assessment lesson; but you could do these units over 8 x 35min sessions (weeks)

Interactive Resources (found across the top bar of the 'Teach Lessons' page)

- In each lesson, refer to the **interactive phonics map** and emphasise the phonics within that lesson.
- Throughout the week, use the **interactive calendar**.
- At the start of each term, refer to the **interactive map** to teach pupils about the geography of some major French cities.
