

Year 1

Group 3 phonics.

Note to parents.

Objective of this lesson is to introduce new sounds to your child.

However your child will still need daily practise of all the sounds introduced so far so the following slides will help with the structure of the session.

Using the guidance you will develop your child's reading and spelling skills.

You can encourage your child to apply the sounding out to reading, writing and spelling.

The hold a sentence will encourage your child to think about a sentence and hold it in their head whilst writing. This will enable your child to apply this skill to longer pieces of writing. By providing your child with a simple sentence they are applying their skills but do not have to come up with their own sentence. Thinking of their own sentences can extend the activity or can be left to the writing sessions.

Good luck from Mrs Shaw

Here are the set

Now hold a sentence.

Think of a simple sentence using today's sound.

Say the sentence and ask your child to say it back to you.

Now ask your child to tell you how to write it. They should tell you how to spell **high frequency words** and **sound out** others. If your child has no difficulty with this ask them to remember it and write it on their own.

Example —

I can draw a big fat dog.

Please find time to read with your child as this will encourage them to practice all they have learnt about sounds.

Your child should be reading the high frequency words by sight and sounding out words with the known sounds in them.

Thank you
