

Nursery Newsletter

All about me

This half term we will be learning all about ourselves in Nursery. We will be creating self-portraits, talking about our features and their differences and similarities. Children will be able to talk about their interests and talents. We will be learning about how to keep our bodies healthy, especially our teeth.

As we have a lot of new children our focus will also be on routines and using our areas of provision effectively. We will be playing lots of games and getting to know our new friends.

We will focus on our speaking and listening skills in our key worker groups and provision ensuring children wait their turn while playing with their friends.

Please also use Tapestry to upload any 'wow' moments your child has at home.

Thank you for your continued support,

The Nursery team.
