

Dear Parents/Carers,

Here is the new home learning grid for Year 1 to show you what your child is learning in their topic this half term.

You can see the vocabulary we are focusing on in class and the facts we are learning. Please talk to your child about these to help them remember and explain what we are doing in school. We have added useful weblinks that you can use too.

Each grid has some ideas for home learning challenges that your child could do. We would love to see the extra learning that they do at home so please send in anything your child makes/learns or finds out at home. These will be rewarded with stickers and class prizes and they will be displayed on the class pages of the website.

Have fun learning at home and we are looking forward to seeing what you have learned and found out. 😊
