

This half term we will be welcoming our new starters and our returning children after the Easter break. We will be working really hard to get the children settled and feeling safe and secure in the Nursery.

This term we will be focusing on the topic In the Garden and learning about this through the books such as Oliver's Vegetables, The Very Hungry Caterpillar, Japer's Beanstalk, Mad About Minibeast. We will be having lots of fun exploring the garden, growing plants and going on mini beast hunts as well as observing the lifecycle of butterflies and tadpoles. Keep updated on our weekly class page to find out more.

We will be continuing to work on our numbers 1-5 but will now be deepening the children's knowledge and understanding of these using the maths mastery approach. BBC numberblocks is a great way to help your child with this at home.

As part of our celebrations calendar we will be celebrating this term Eid, Anti-Racist Day, Refugee week, Pride and Spirit Alive.

As well as this we have some exciting visitors planned we have a artist coming in to deliver a session for the children, Leeds libraries story buses are coming to the school, we have a fantastic Chatterbugs challenge planned and parents and carers will be invited closer to the time.

We are also hoping to start our stay and play sessions once all of the children are settled times and days will be communicated closer to the time.

We love to see the children's learning from home and this can be sent in to the Nursery and uploaded to Tapestry. We then display this on our learning from home wall and all the children who participate are entered into a prize draw!
