

Dear Parents and Carers,

18.3.20

Schools are still currently open but if schools were to close due to Coronavirus in the future, or if you child needed to self-isolate, here are some ideas for home learning.

We have put together a home learning pack which is attached.

If the school was to close we will be using Tapestry to set challenges to do at home so please make sure your details are up to date and you keep checking Tapestry.

These website and links may also be useful to have a look at:

www.twinkl.co.uk (They are currently offering free resources to support home learning.)

<https://www.bbc.co.uk/cbeebies/shows/numberblocks> (Numberblocks is highly recommended by Early Years maths specialists.)

<https://www.youtube.com/user/KidsTV123>

<https://www.youtube.com/user/CosmicKidsYoga>

<https://www.youtube.com/watch?v=i-lfzeG1aC4> This is 'dough disco' which is a great video for practising fine motor skills using playdough.

These are activities that are useful to do on a regular basis: full name writing practise, counting aloud in 1s, 2s, 5s and 10s, finding one more and one less than any number up to 20, regular reading and phonics practice, practising using scissors to cut out and enjoying stories with you.

Thank you for your continued co-operation at a difficult time and please remember to check Tapestry for challenges if school was to close.

The Reception Team
