

Fact families – addition and subtraction bonds to 20

- 1** What calculations are represented?
The first one has been done for you.

$$15 + 5 = 20$$

$$\square + \square = \square$$

$$\square + \square = \square$$

- d) How many other number bonds to 20 can you make using counters and ten frames?

- 2** Complete the fact family.

a) $15 + 2 = 17$

$$17 = 15 + 2$$

$$2 + 15 = \square$$

$$\square = \square + \square$$

$$17 - 15 = \square$$

$$\square = \square - \square$$

$$\square - \square = \square$$

$$\square = \square - \square$$

- b)

$2 - 17 = 15$ should be in the fact family.

Explain why Rosie is wrong.

- 3 Complete the number sentences for the part-whole model.

Are there any other number sentences in this fact family?

Talk about it with a partner.

- 4 There are 9 boys and 8 girls in a class. Complete the bar model to represent this.

Write the fact family for the bar model.

- 5 Circle any incorrect calculations.

$$3 + 7 = 10$$

$$10 = 3 + 7$$

$$7 + 3 = 10$$

$$10 = 7 + 3$$

$$10 - 7 = 3$$

$$7 - 3 = 10$$

$$3 - 10 = 7$$

$$7 = 10 - 3$$

Explain the mistake that has been made.

- 6 Here are some number cards.

Choose two number cards and find their total.

$$\square + \square = \square$$

Write the fact family for this calculation.

Compare answers with a partner.
